1 Implementation

- With the expansion of the location in Neustadt in Saxony, CAPRON is breaking new ground in order to be able to cope with the increasing number of deliveries / collections in the future. With the help of the SyncroSupply time slot booking system, we are systematizing the flow of goods. In this way, we achieve a more effective utilization of our existing capacities and, at the same time, haulage companies can better plan their delivery times at CAPRON and thus obtain more leeway. Waiting and idle times as well as processing times on the part of the drivers are optimized and enable an effective use of resources.
- In the course of the financial year 23/24, we will introduce the time window management system. After the introduction, all haulage companies (except courier and parcel service providers) will have to register their transports (deliveries and collections) via SyncroSupply. Please be prepared for this. From this point on, we will only be able to process deliveries registered and logged in SyncroSupply.
- In order to ensure the processes in connection with our time slot management system, our suppliers are obliged to provide us with the contact details of the haulage companies commissioned for delivery with a lead time of 10 working days before the first delivery, so that they receive an activation link and training documents before the first delivery.
- Opening hours:
our gates are open for the delivery traffic in the time between 6-18 o'clock. The times of receiving of the individual incoming goods deviate from this. Any variations in the individual loading points can be seen in the time slot management.
- In case of problems, the control center can be reached via the e-mail address Zeitfenster@capron.eu. We will get back to you as soon as possible.

2 Instructions Synchrosupply External

2.1 Process Start

2.1.1 Register

You will receive an email from us with an invitation to book time slots: "Invitation to book time slot for location xxx". The email contains a link to SYNCROSUPPLY Central (1) and an activation link (2). If you do not have an account in SYNCROSUPPLY Central yet, click on the first link. (1)

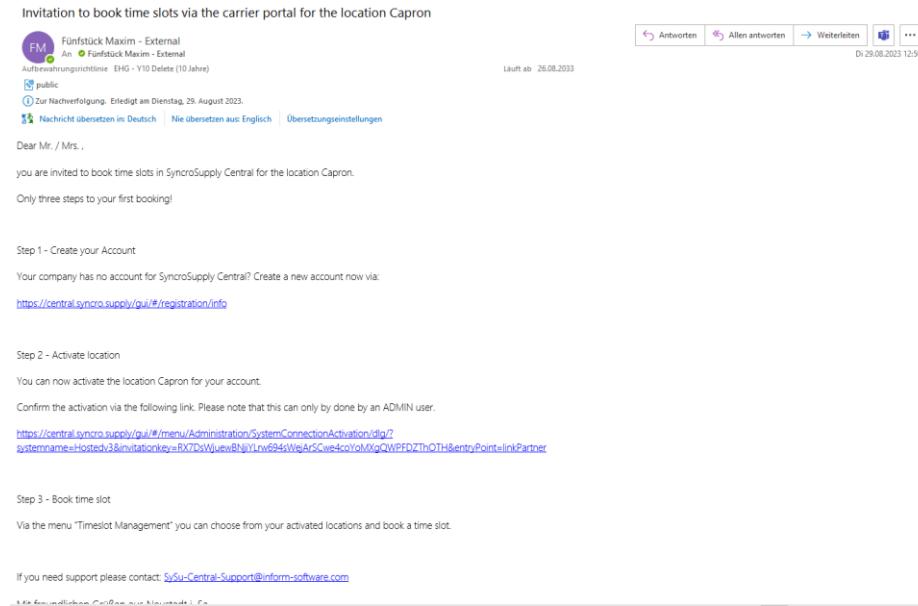

Figure 1 Registration Mail

Alternatively, you can call up the SYNCROSUPPLY Central login page and click on Register a freight transport at the bottom of the dialog.

Time slot booking process haulage companies

Figure 2 Registration Link

You will be automatically redirected to the registration form:

The screenshot shows the "Account Registration" form. At the top, it says "Input fields marked with a red asterisk must be filled out." Below this are language selection buttons for Deutsch, English, Czech, Français, Italian, and Romanian. The form is divided into sections: "User Data" and "Company Information". In the "User Data" section, there are fields for "First Name*" (with a red asterisk), "Last Name*", "Email*", "Phone Number*", and "Password*". Below the password field is a password strength indicator with six options, all of which have radio buttons selected. In the "Company Information" section, there are fields for "Company Name*", "Country*", "Zip Code*", "City*", "Street*", and "State*". There is also a "Timezone*" dropdown set to "(UTC +02:00) Europe/Berlin". At the bottom of the form is a "Next" button.

Figure 3 Registration Form

- ✓ Select a preferred language using the flags.
- ✓ Fill out this form.
- ✓ All fields marked with a red asterisk are mandatory.
- ✓ Note that each email address can only be used once in a SYNCROSUPPLY Central account.
- ✓ Observe the guidelines for assigning a secure password.
- ✓ Click Next. A window opens in which you can view and confirm the terms of use.

SYNCROSUPPLY CENTRAL

INFORM

Account Registration

Terms of Usage

INFORM grants you the free, simple, revocable, non-transferable and non-sublicensable right to use the SYNCROSUPPLY CENTRAL portal, hereinafter also referred to as "portal", with its standard functions limited to use for the purpose of processing transport and driving orders and as a specialized means of communication with the customer or with the loading/unloading location that has activated you for this portal, hereinafter referred to as "customer". In order to communicate with your customer via the portal, your customer must first invite your organization. By using the portal, you agree to these terms of use. If you do not accept these conditions, use of the portal is not permitted. INFORM reserves the right to change these Terms of Use at any time.

The initial registration of your organization in the portal is carried out by the "Company Admin", who was designated by your organization. The Company Admin is your organization's first point of contact for INFORM. This role involves special tasks. The Company Admin centrally maintains the basic data for the users of your organization (dispatchers and drivers), so that they can access the portal directly. For this purpose, he obtains the consent of the respective employees beforehand. For further information on the handling of personal data at INFORM, please refer to the [Privacy Policy](#) for the portal.

You are responsible for the content posted. When using photo, video and sound recordings, which are created, transmitted and processed for the purpose of order processing documentation, you are fully liable, among other things, for compliance with personal rights and copyright.

You may not access the data of the software directly or manipulate this data. This includes the basic data and runtime data, the interface data and the log files generated and/or used by the software. Furthermore, you are prohibited from granting unauthorized third parties access to the portal and your access is only permitted via interfaces provided by INFORM, e.g. the web interface of SYNCROSUPPLY CENTRAL, further INFORM modules, adapted INFORM interfaces and via your customers operating processes approved by INFORM, e.g. backup and monitoring processes. (Semi-) automated access to these interfaces is prohibited.

Repeated improper use of the portal can lead to the revocation of the rights of use granted and to the blocking of your access.

Support inquiries are to be directed to INFORM via the contact form in the portal or by Mail via Info-Central-Support@inform-software.com. INFORM Support will contact you as soon as possible, depending on the severity of the request.

INFORM shall be liable for damages for any legal reason in terms of amount in accordance with the following provisions:

a) intent and gross negligence: The liability of INFORM for damages caused by INFORM or one of its vicarious agents or legal representatives intentionally or through gross negligence is unlimited in amount.

b) Personal injury: In the event of damage resulting from injury to life, body or health, liability is unlimited, even in the event of a simple negligent breach of duty by INFORM or a legal representative or vicarious agent of INFORM.

c) Organizational fault and guarantee: Liability is also unlimited in terms of amount for damages which are attributable to serious organizational fault on the part of INFORM, as well as for damages which were caused by the absence of a guaranteed quality.

d) breach of essential contractual obligations: In the event of a breach of material contractual obligations, INFORM shall be liable, if none of the cases referred to in letters a) to c) and in f) is given, to the extent of the damage typically foreseeable under the contract.

I accept the terms of usage.

[Back](#) [Create Account](#)

Figure 4 ToS

After reading the terms of use and accepting them by ticking the box, you can proceed.

✓ Click on the "Create Account" button.

A confirmation message will appear.

After completing the registration, you will receive an e-mail "Welcome to SYN-CROSUPPLY Central" and you can activate your user account by clicking on Activate account.

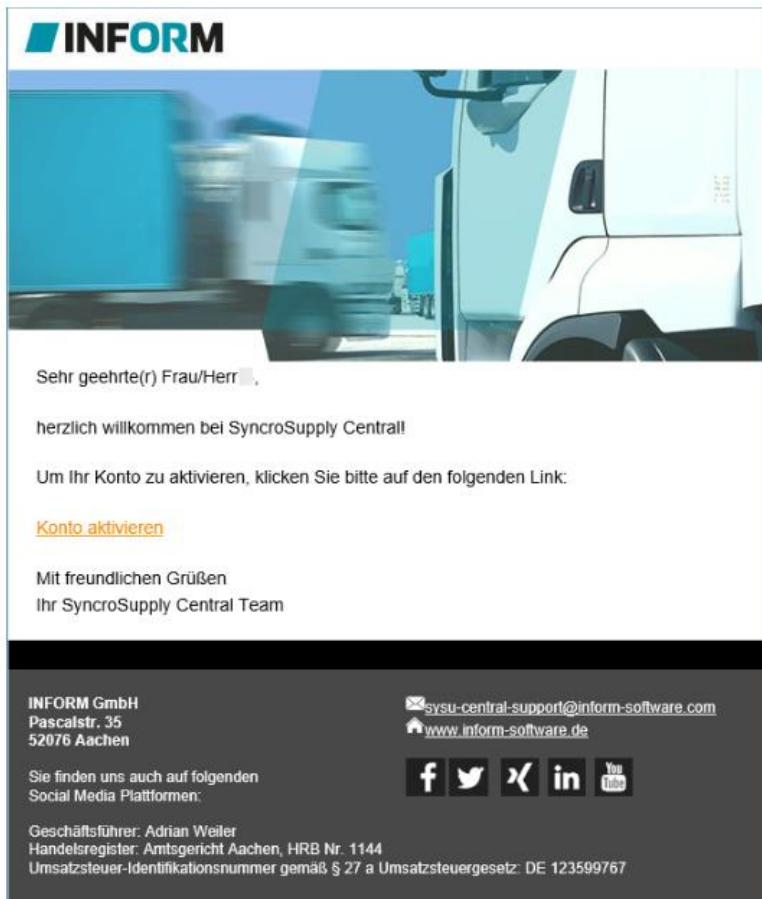

Figure 5 Account Activation

After that, you will receive another email confirming that your user account has been created. Your username and password will be sent to you.

2.1.2 Launch website

Open the website <https://central.syncro.supply/gui/#/login> to be able to book delivery or pick-up time slots for Capron Neustadt.

2.1.3 Log in for time slot booking

Log in with your e-mail address (=user) and the password you have defined.

The program interface is available in several languages, the desired language can be selected via the respective flag icon.

Figure 6 Log in

2.1.4 Time slot management

Click on the Time slot management menu item.

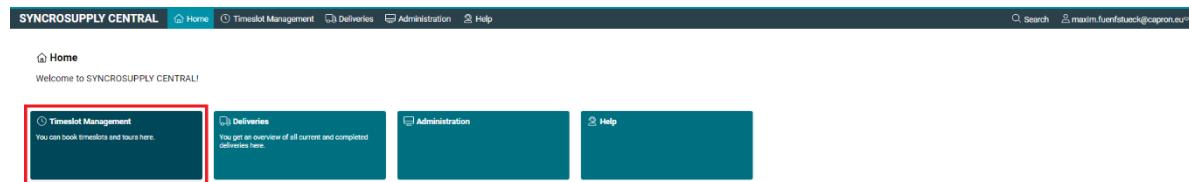

Figure 7 Timeslot management

2.1.5 Select Location

Select Capron, as the location to which you want to deliver. Note that depending on the situation, other companies may appear here if they are also users of the SynchroSupply system.

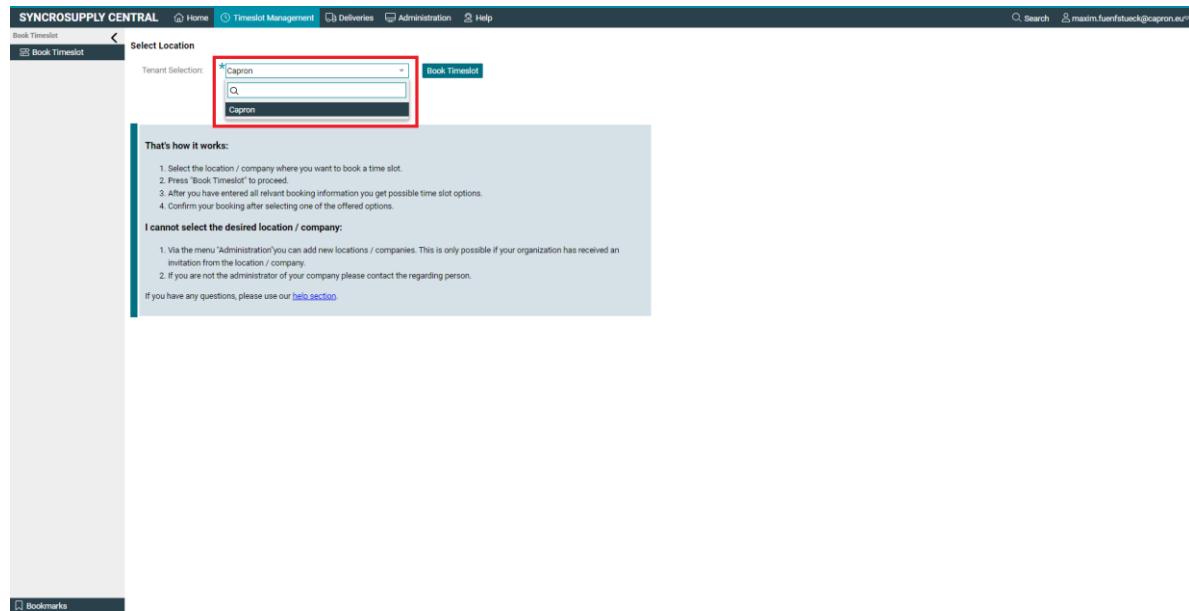

Figure 8 Select Location

2.1.6 Book time slot

Click the Book time slot button to continue the process.

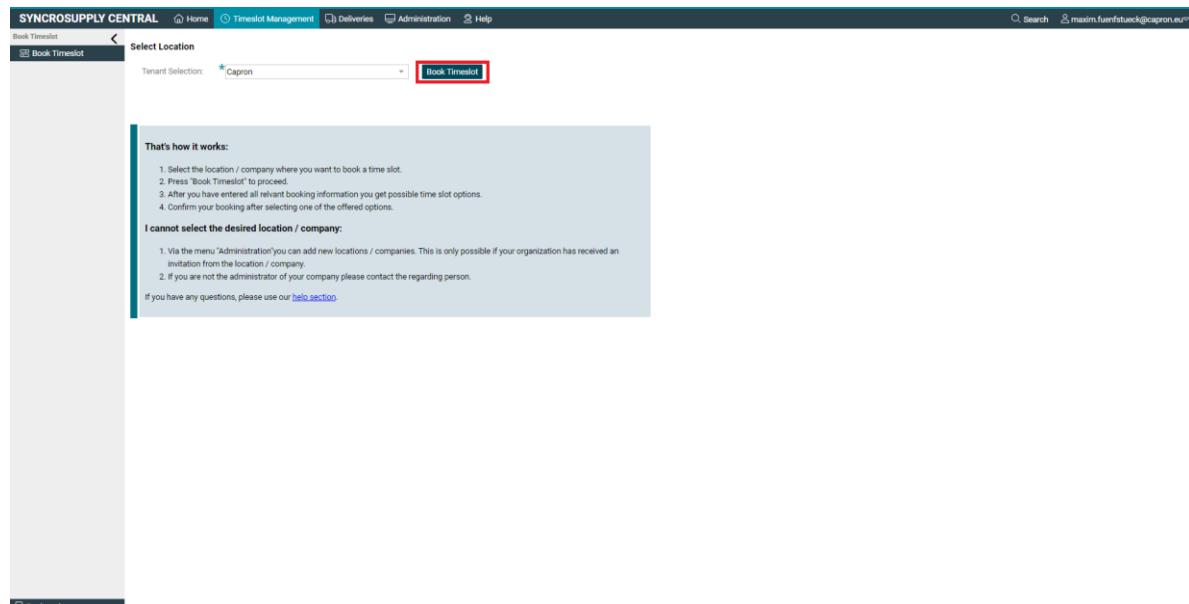

Figure 9 Book timeslot

2.2 Standard deliveries

Standard deliveries are all those that follow the normal delivery process, i.e. are not shown in the form of the special cases that follow.

2.2.1 Book a time slot

Select the "Book time slot" button to create a new trip.

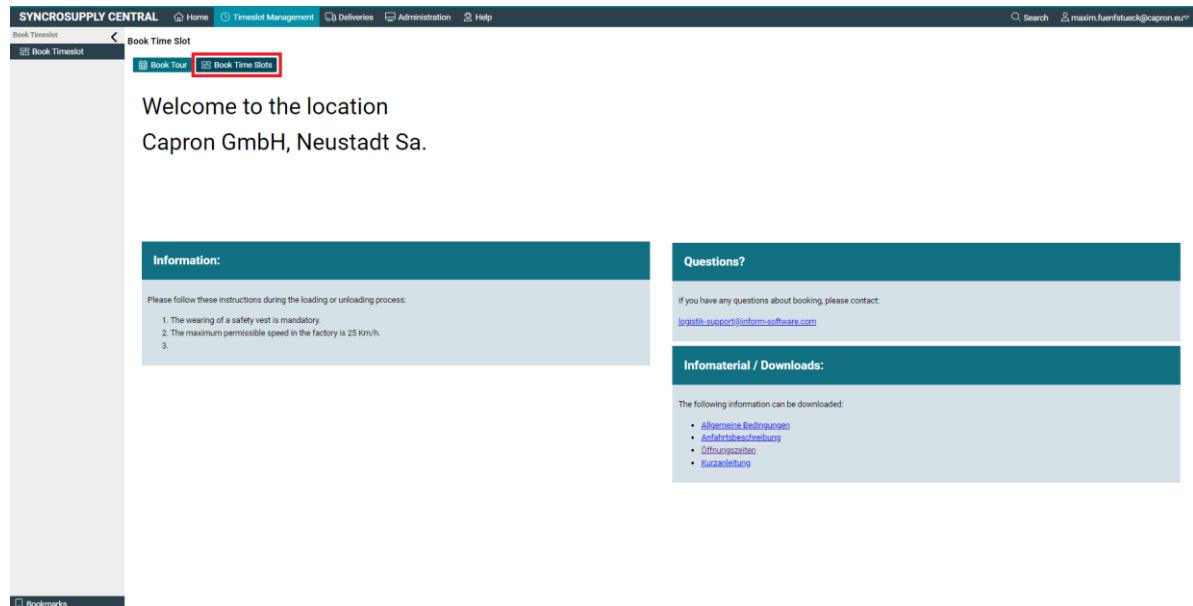

Figure 10 Book a Time Slot

2.2.2 Select Delivery

Now select the desired delivery from those that have been activated for you. You can either search for your shipping company name or select the WE number to which the delivery will be made.

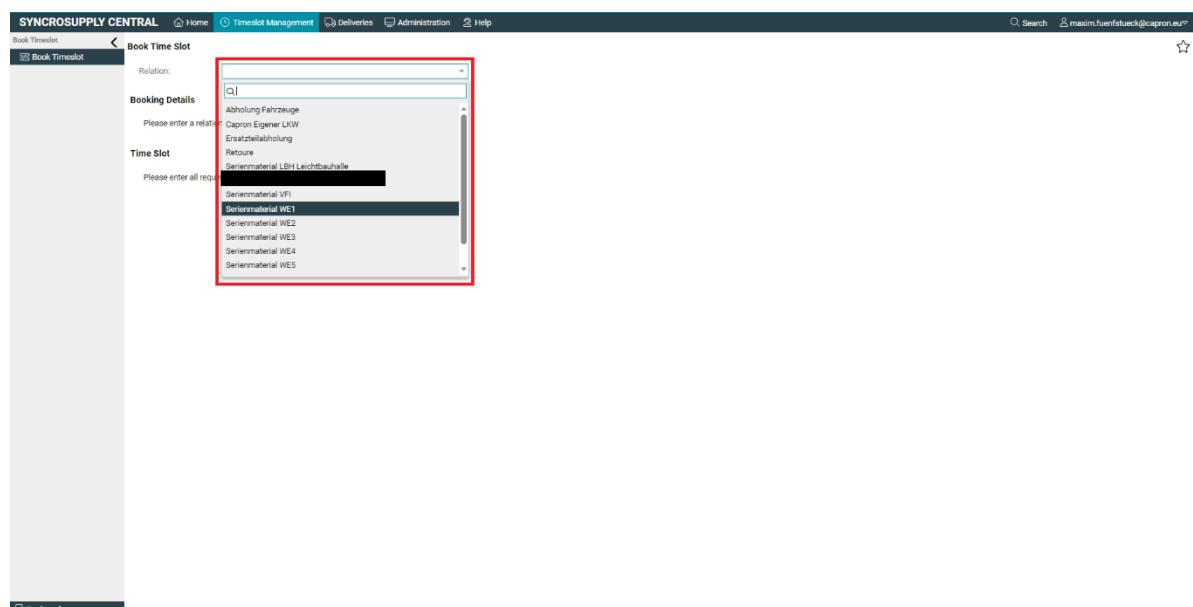

Figure 11 Select delivery

2.2.3 Fill out tour and driver information

Please fill in all the fields you can. Fields marked with an asterisk are mandatory and therefore must be filled in. The other fields, such as trailer license plate, should be filled only if required.

Syncrosupply Central Home Timelot Management Deliveries Administration Help Search maxim.fuenfstueck@capron.eu Edit Book Timeslot Book Timeslot Relation: Serienmaterial WE1 Booking Details Delivery Data Delivery Type: Standardlieferung/abholung Carrier: *Capron Reference: Add reference Supplier: *Haulier: *Remark: Add remark here Resource and Driver Information Vehicle Licence Plate: * Driver Name: * Trailer Licence Plate: Driver Language: * Vehicle Type: * Mobile Number: * Loading Positions and Loading Units Operations: WE1 Gebäude 40 Loading Type: * Unloading Loading Unit: * Loading Quantity: * Continue Time Slot Please enter all required booking details to request a time slot. Bookmarks

Figure 12 Driver and tour information

2.2.4 Select loading position

Select the destination to which you are delivering. Normally only one can be selected. If you change the loading type to "Loading", the empty location will appear as the loading destination and can be used normally.

Syncrosupply Central Home Timelot Management Deliveries Administration Help Search maxim.fuenfstueck@capron.eu Edit Book Timeslot Book Timeslot Relation: Serienmaterial WE1 Booking Details Delivery Data Delivery Type: Standardlieferung/abholung Carrier: *Capron Reference: Add reference Supplier: *Lieferant fehlt Haulier: *Capron Remark: Add remark here Resource and Driver Information Vehicle Licence Plate: * Driver Name: * Harry Potter Trailer Licence Plate: Driver Language: *English Vehicle Type: *Leichte Luv: max. 7,5 t; max. Bookmarks

Figure 13 Select Loading Position

2.2.5 Select cargo

Select the cargo items that you want to deliver. Note here that if you want to deliver several different ones, you must also add several loading actions. You will find more information on this in the next step.

After selecting the cargo item, enter the number of items to be delivered in the next field.

The screenshot shows the 'Syncrosupply CENTRAL' software interface for booking a time slot. In the 'Booking Details' section, the delivery type is set to 'Standardlieferung/-abholung'. The carrier is 'Capron' and the supplier is 'Lieferant fehlt'. The driver is 'Harry Potter'. Under 'Resource and Driver Information', the vehicle license plate is listed. In the 'Loading Positions and Loading Units' section, the operations are 'WE1 Gebäude 40' and the loading type is 'Unloading'. A dropdown menu for 'Loading Unit' is open, showing a list of options. The 'Loading Quantity' field next to it is also highlighted with a red box. At the bottom, there is a 'Continue' button.

Figure 14 Select Cargo

2.2.6 Add another loading action

Add another loading action by clicking on the plus symbol. You must create one loading action per unit and type of loading.

This is not necessary for every journey and is not required if only one type of loading unit is delivered.

The screenshot shows the 'Syncrosupply CENTRAL' software interface for booking a time slot. It is similar to Figure 14 but includes an additional loading action. The 'Operations' row now includes a plus sign icon, which is highlighted with a red box. The 'Continue' button is visible at the bottom of the form.

Figure 15 Add Loading Action

2.2.7 Fill out loading as previously

If you added loading actions in the previous step, you must now fill them in as in steps 3.2.4 and 3.2.5.

2.2.8 Continue

Now check if your loading actions are right and correct the content if necessary.

If everything is so far correct, click on the "Continue" button to continue the process.

The screenshot shows the 'Book Time Slot' page in the Syncrosupply Central application. The 'Booking Details' section includes 'Delivery Data' (Carrier: Capron, Supplier: Lieferant fehlt), 'Resource and Driver Information' (Vehicle Licence Plate: [REDACTED], Driver Name: Harry Potter), and 'Loading Positions and Loading Units'. A red box highlights the 'Continue' button at the bottom left of the main form area.

Continue

Figure 16 Continue Standard Delivery

Time slot booking process haulage companies

2.2.9 Select tour date

Select the date on which the tour will take place and the goods will be delivered by pressing on the text field and clicking on the day in the calendar sheet.

The screenshot shows the Syncrosupply Central software interface for booking a time slot. The main title is 'SYNCRSUPPLY CENTRAL'. The top navigation bar includes links for Home, Timetable Management, Deliveries, Administration, and Help. The user is logged in as 'maxim.fuerstueck@capron.eu'. The current page is 'Book Timeslot'. The 'Relation' is set to 'Serienmaterial WE1'. In the 'Booking Details' section, the 'Delivery Type' is 'Standortlieferung/-abholung', 'Carrier' is 'Capron', 'Supplier' is 'Lieferant fehlt', 'Hauler' is 'Capron', 'Operations' are 'WE1 Gebäude 40' (Unloading), and 'Vehicle License Plate' is redacted. The 'Vehicle Type' is 'Leichte Lkwr. max. 7,5 t max. Höh...', 'Driver Name' is 'Harry Potter', and 'Driver Language' is 'English'. The 'Loading Unit' is 'Euro-Palette/ Einweg-Palette Euro...', 'Loading Type' is 'Unloading', 'Loading Quantity' is '4', and 'Gitterbox/Polyboxen' is listed. The 'Time Slot' section shows a calendar for August 2023 with a red border around it. The 'Requested Time' is set to '01:10 pm'. Below the calendar, there are 'Clear' and 'Today' buttons. At the bottom of the page are 'Bookmarks', 'Save Selected Solution', and 'Delivery Monitor' buttons.

Figure 17 Select Tour Date Standard Delivery

2.2.10 Select desired time

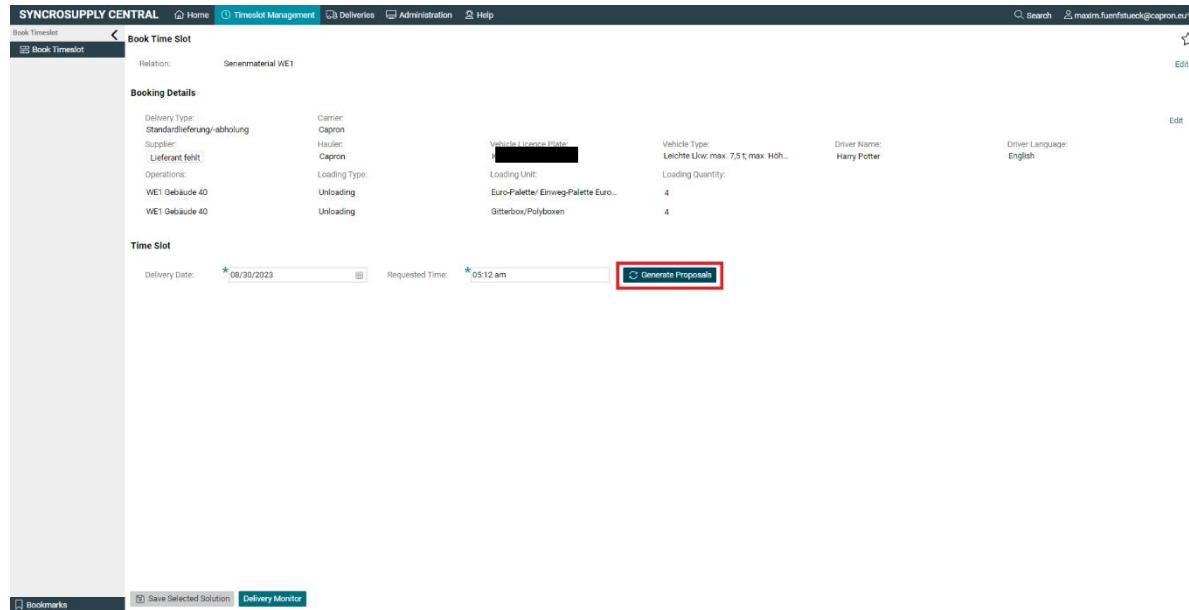

Select the desired time for your truck to arrive at Capron's premises.

This screenshot shows the same Syncrosupply Central software interface as Figure 17, but with a different requested delivery time. The 'Requested Time' field is highlighted with a red box and contains '05:12 am'. All other details in the booking form and calendar are identical to Figure 17.

Figure 18 Select desired time Standard Delivery

2.2.11 Click on „Generate Proposals“

Click on the button „Generate Proposals“, to continue the process.

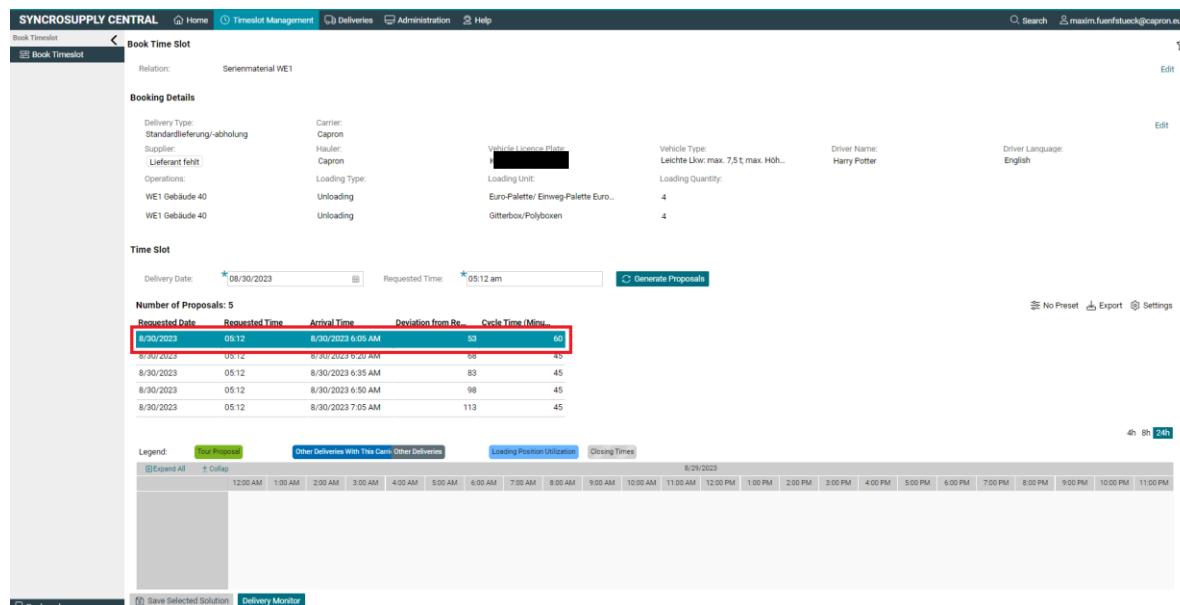

The screenshot shows the Syncrosupply Central software interface. The top navigation bar includes Home, Timeslot Management, Deliveries, Administration, and Help. The main title is 'Book Time Slot'. Under 'Booking Details', there are fields for Delivery Type (Standardlieferung/-abholung), Carrier (Capron), Supplier (Lieferant fehlt), Hauler (Capron), Vehicle Licence Plate (redacted), Vehicle Type (Leichte Lkw: max. 7,5 t, max. Höh..), Driver Name (Harry Potter), and Driver Language (English). Operations listed are WE1 Gebäude 40 (Unloading) and WE1 Gebäude 40 (Unloading). The 'Time Slot' section shows Delivery Date (08/30/2023) and Requested Time (05:12 am). A red box highlights the 'Generate Proposals' button. At the bottom, there are 'Save Selected Solution' and 'Delivery Monitor' buttons.

Figure 19 Generate Proposals Standard Deliveries

2.2.12 Click on Proposals

Click on the one that suits you best from the suggestions displayed. Time slots are displayed at 15-minute intervals, but you can only book time slots at least 10 minutes in the future.

Depending on the opening hours of the loading destination you have selected, there may not be a time slot available at certain times. If this is the case, try again on another date or time.

The screenshot shows the Syncrosupply Central software interface with generated delivery proposals. The 'Number of Proposals: 5' is displayed. The proposals are listed in a table:

Requested Date	Requested Time	Arrival Time	Deviation from Re...	Cycle Time (Mins)
8/30/2023	05:12	8/30/2023 6:05 AM	53	60
8/30/2023	05:12	8/30/2023 6:20 AM	68	45
8/30/2023	05:12	8/30/2023 6:35 AM	83	45
8/30/2023	05:12	8/30/2023 6:50 AM	98	45
8/30/2023	05:12	8/30/2023 7:05 AM	113	45

A specific proposal (8/30/2023 6:05 AM) is highlighted with a red box. The interface also includes a legend for 'Your Proposal', 'Other Deliveries With This Carr.', 'Other Deliveries', 'Loading Position Utilization', and 'Closing Times'. The bottom shows a timeline from 12:00 AM to 11:00 PM.

Figure 20 Click on proposals Standard Delivery

2.2.13 Save selected solution

Once you have selected your proposal, click on the "Save Selected Solution" button to book the tour.

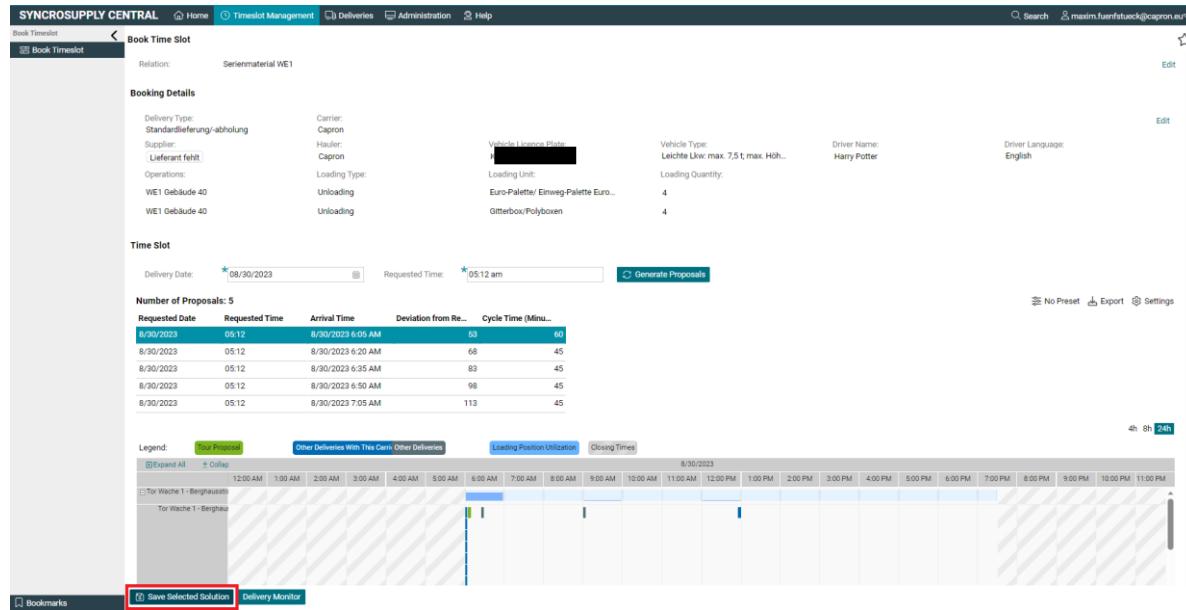

Figure 21 Save Solution Standard Deliveries

Once you've done this, the journey is booked and shows up in the system, so check the selected time slot again.

2.2.14 Send confirmation e-mails

Enter the e-mail addresses that should receive a copy of the booking confirmation. For example, subcontractors who take over the tour can be informed in this way.

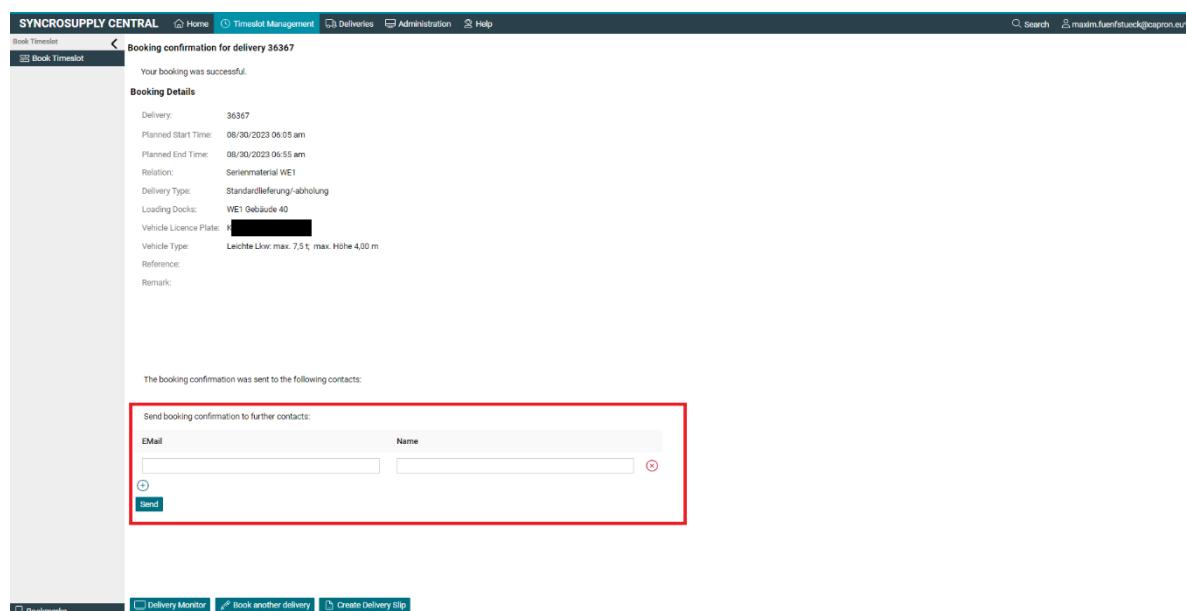

Figure 22 Send Confirmation Email Standard Deliveries

2.2.15 Create delivery Slip

Click on the "Create Delivery Slip" button to save the ticket on your device. The default location is in the Downloads folder.

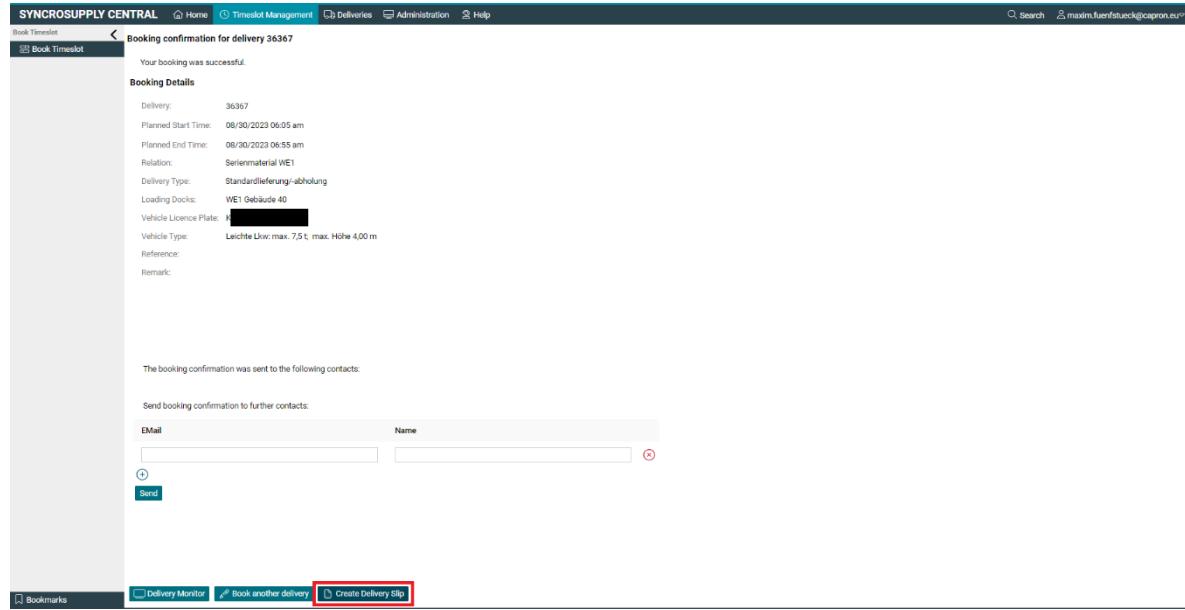

Figure 23 Create Delivery Slip Standard Deliveries

2.2.16 Open and print Delivery Slip

Print out the ticket and give it to the driver of the vehicle.

The delivery slip is the driver's way of identifying their tour to Capron. If there is no slip, the delivery may be delayed or even postponed.

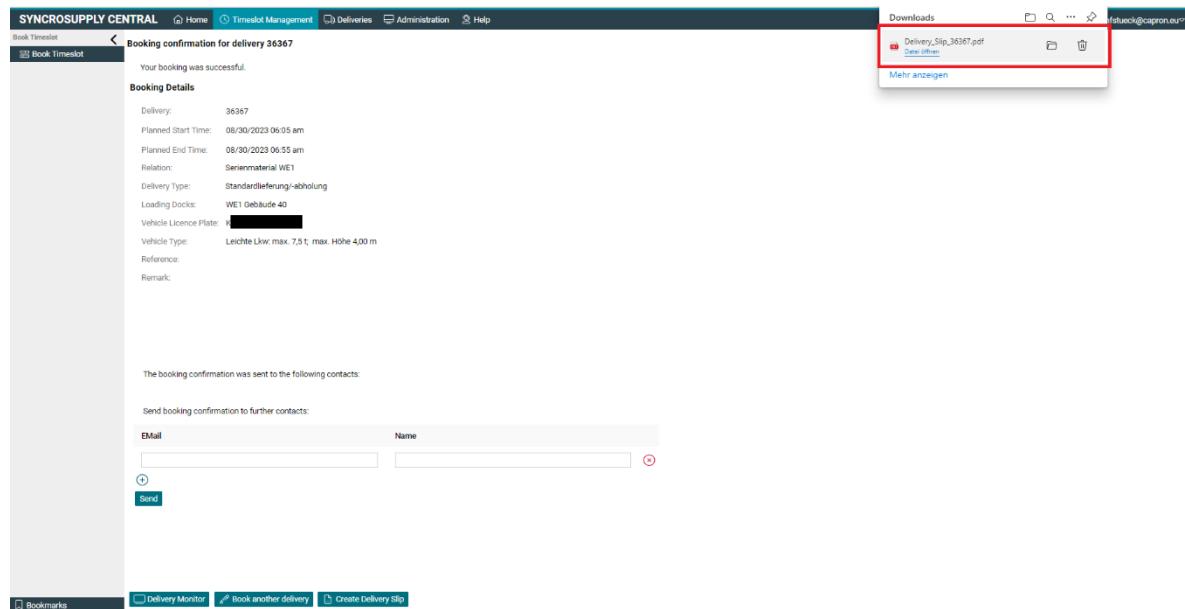

Figure 24 Open Delivery Slip Standard Deliveries

2.2.17 Home Page

Return to the start page. From the home page you can make further bookings if you wish.

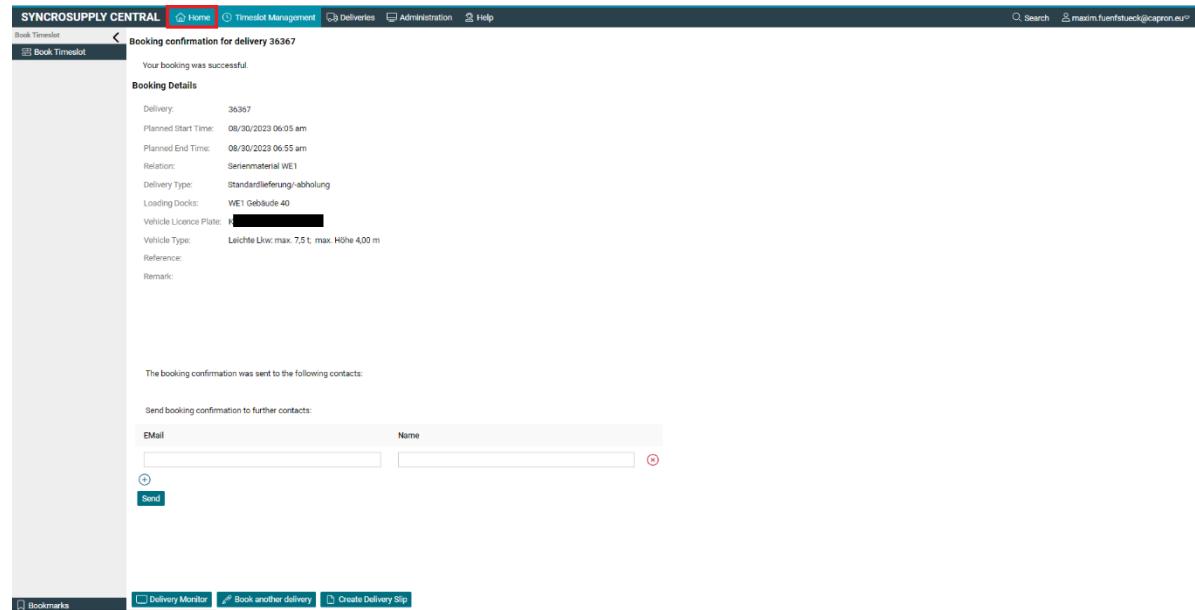

Figure 25 Home Page Standard Deliveries

2.3 Regular Tours

Regular tours are permanently created tours with a fixed cycle and a permanently similar freight volume. Depending on the setting of the regular tour, regular tours are automatically booked time slots or just a pre-booking. Pre-bookings must be confirmed by the delivering carrier to become confirmed bookings.

With a regular tour, the haulage companies lose flexibility in the choice of delivery time, this is set once in agreement, but the efforts of booking are reduced.

The set-up of a regular tour can be requested via the operational purchasing department or by email to Zeitfenster@capron.eu. The request should be made informally and in writing, stating the desired day(s) of the week, time, load volume and contact person for coordination. The possibility of implementing this will be checked by Capron and, if possible, the regular tour will be configured.

Important: Unused regular tour time slots must be cancelled by the forwarder, if it is repeatedly found that regular tour time slots remain unused and have not been cancelled, thus blocking a time slot for use by others, the forwarder will again be excluded from regular tour operation.

2.3.1 Book a regular tour

Click on the button "Book tour" to book a regular tour.

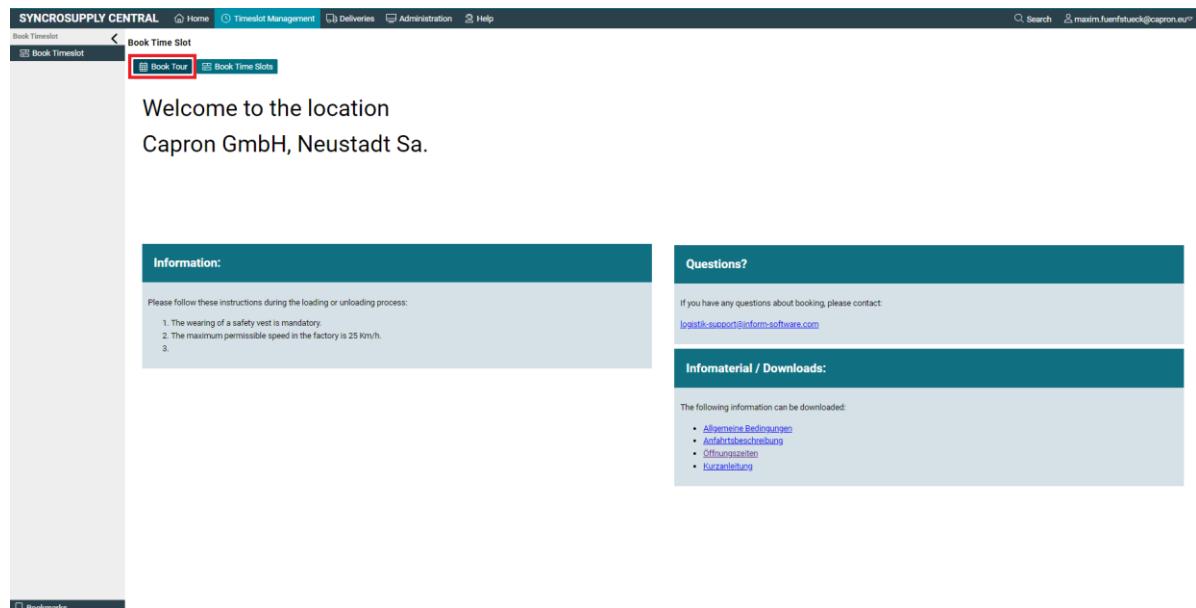

Figure 26 Book a regular tour

Time slot booking process haulage companies

2.3.2 Select Regular Tour

You will now be shown a list of all scheduled regular tour dates, find the one you want to schedule in the list and click on it once.

Figure 30 Create Delivery

2.3.6 Delivery Monitor

Click on the "Delivery Monitor" button to access the trip monitor.

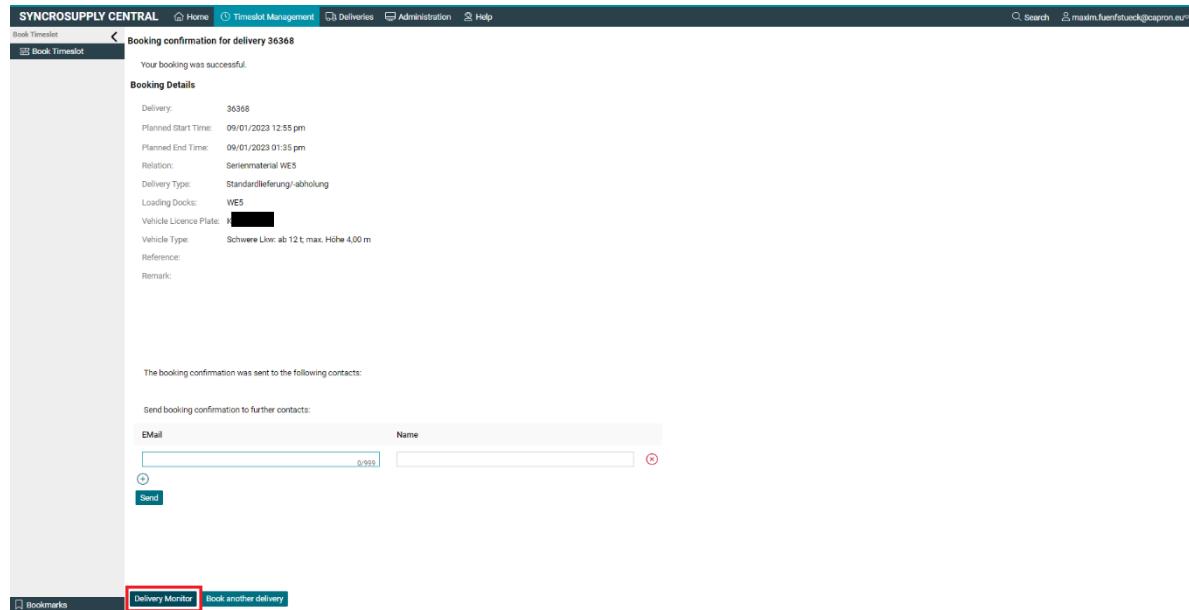

Figure 31 Delivery Monitor

2.3.7 Click to create a ticket

Once in the delivery monitor, you must click on the "Create Delivery Slip" button to download the ticket. Print the ticket and give it to the driver.

The ticket is the driver's way of identifying their journey to Capron. If no ticket is brought, the delivery may be delayed or even postponed.

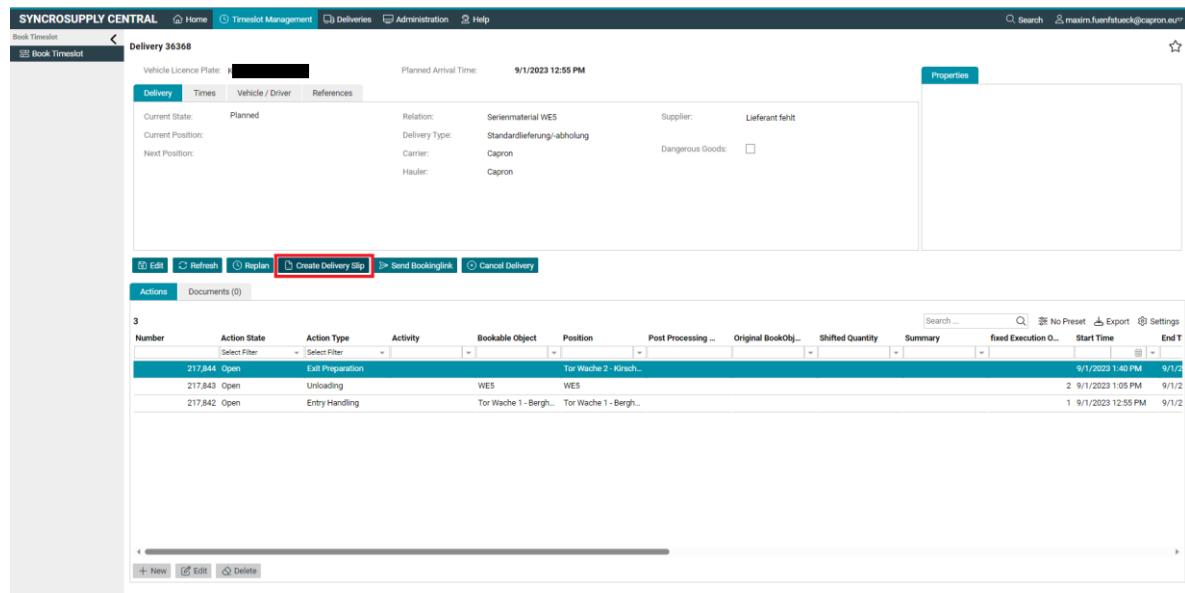

Figure 32 Create Delivery Slip Regular Tour

2.3.8 Home page

Click the Home button to return to your starting position. From there, you can book further journeys.

The screenshot shows the Syncrosupply Central application interface. At the top, there's a navigation bar with links for Home, Timeslot Management, Deliveries, Administration, and Help. The main content area displays a delivery record for 'Delivery 36368'. It includes fields for Vehicle Licence Plate (redacted), Planned Arrival Time (9/1/2023 12:55 PM), Current State (Planned), Relation (Serienmaterial WES), Supplier (Lieferant fehlt), Delivery Type (standardlieferung/abholung), Carrier (Capron), and Hauler (Capron). Below this, there are tabs for Delivery, Times, Vehicle / Driver, and References. A 'Downloads' sidebar on the right lists PDF files: 'Delivery_Slip_36368.pdf', 'Delivery_Slip_36367.pdf', and 'Delivery_Slip_36366.pdf'. A 'Mehr anzeigen' button is also present. At the bottom, there's a table titled 'Actions' with three rows of data:

Number	Action State	Action Type	Activity	Bookable Object	Position	Post Processing ...	Original BookObj...	Shifted Quantity	Summary	fixed Execution O...	Start Time	End T
217,844	Open	Exit Preparation			Tor Wache 2 - Kirsch...					9/1/2023 1:40 PM	9/1/2

217,842	Open	Entry Handling		Tor Wache 1 - Bergh...	Tor Wache 1 - Bergh...					1 9/1/2023 12:55 PM	9/1/2	

At the bottom left, there are buttons for '+ New', 'Edit', and 'Delete'. On the far left, there's a 'Bookmarks' section.

Figure 33 Home Page Regular Tour

2.4 Returns

We define a return as the return of goods to the supplier. We distinguish between two types of returns:

- Empties-/Packaging materials
- Returns/ agreed returns of production material for e.g. rejection reasons

In the processes, the two are almost identical

Capron shall notify the supplier of returns and the supplier shall instruct its haulage company to collect and return the goods. For this purpose, the supplier shall be notified by Capron of a return delivery note including a return number.

The forwarding agent needs this return number to book and register a return in time slot management system.

2.4.1 Book Tour

Click on the button “Book Tour”

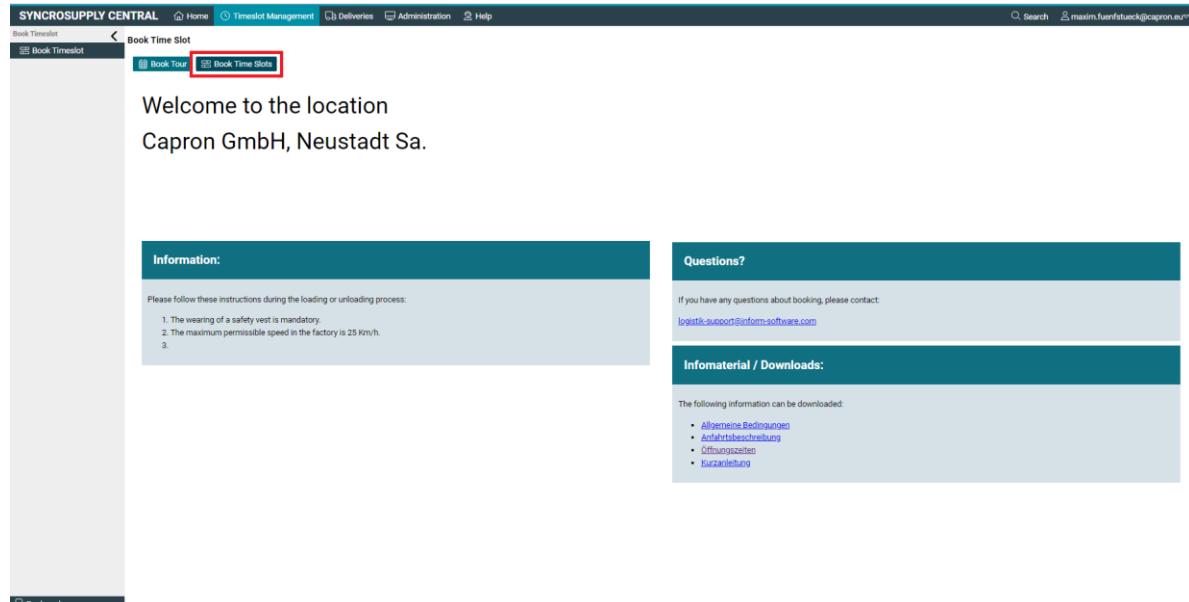

Figure 34 Book Time slot Returns

2.4.2 Select return

Select "Retoure" in the context menu that opens.

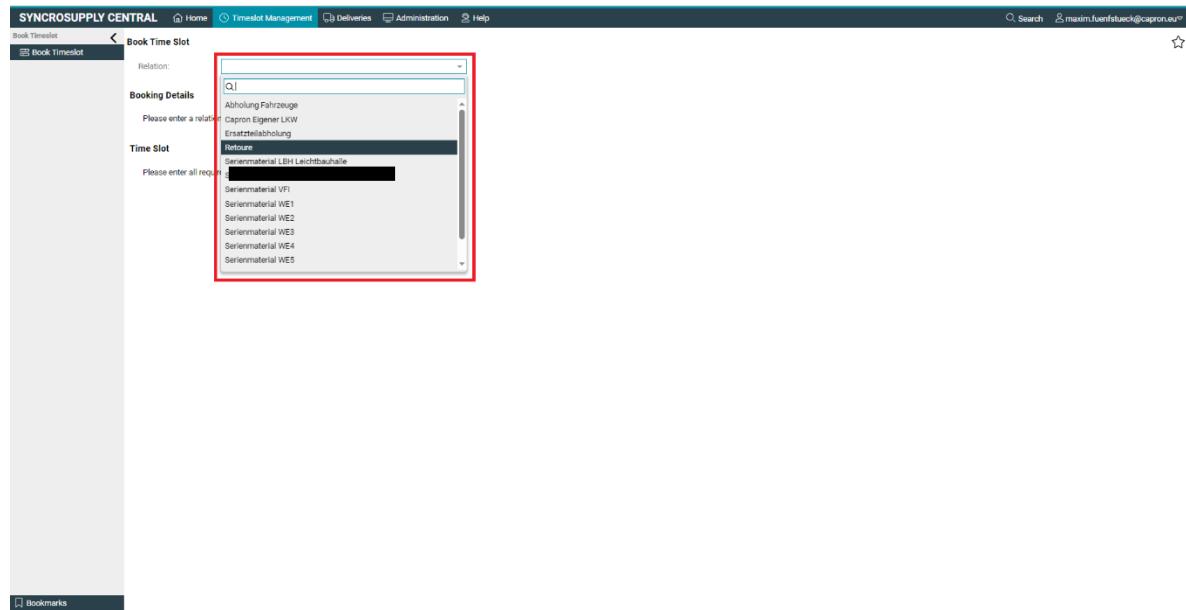

Figure 35 Select Return

2.4.3 Enter Reference Number

Please enter the return number sent to you by Capron so that we can allocate your booking and provide the material to be collected at the time booked.

The screenshot shows the 'Book Time Slot' interface with the 'Delivery Data' section active. The 'Reference' field is highlighted with a red box. Other fields in this section include 'Carrier' (Capron) and 'Supplier'. Below this is the 'Resource and Driver Information' section with fields for 'Vehicle Licence Plate', 'Driver Name', 'Trailer Licence Plate', 'Driver Language', 'Vehicle Type', and 'Mobile Number'. At the bottom is the 'Loading Positions and Loading Units' section with fields for 'Operations', 'Loading Type', 'Loading Unit', and 'Loading Quantity'. A 'Continue' button is also present.

Figure 36 Reference Number

2.4.4 Fill out remaining data

Fill in everything you can here. Fields marked with an asterisk are mandatory and must therefore be filled in.

The screenshot shows the 'Book Time Slot' interface. The 'Booking Details' section contains several mandatory fields marked with an asterisk (*): 'Carrier' (Capron), 'Supplier' (red box), 'Haulier' (red box), 'Vehicle Type' (red box), and 'Mobile Number' (red box). The 'Resource and Driver Information' section includes 'Vehicle Licence Plate' (red box), 'Driver Name' (red box), 'Trailer Licence Plate' (red box), 'Driver Language' (red box), and 'Mobile Number' (red box). The 'Loading Positions and Loading Units' section has mandatory fields for 'Operations' (red box), 'Loading Type' (red box), 'Loading Unit' (red box), and 'Loading Quantity' (red box). A 'Continue' button is visible at the bottom left.

Figure 37 Delivery Data

2.4.5 Select Loading Position

Select the loading destination/position communicated to you by Capron.

The screenshot shows the 'Book Time Slot' interface with the 'Operations' dropdown menu open. The menu lists various loading positions: 'Eratzabholung WE6', 'Liegatatabholung Platz', 'VFT Maskenlieferung', 'WE1 Gebäude 40', 'WE2', 'WE3', 'WE4', 'WE5', 'WE6 Gebäude 15', and 'WE7'. The option 'Eratzabholung WE6' is highlighted with a red box. Other fields in the form are also highlighted with red boxes, including 'Carrier' (Capron), 'Supplier' (red box), 'Vehicle Type' (red box), and 'Mobile Number' (red box).

Figure 38 Select Loading Position Returns

2.4.6 Select Cargo

Now select the Cargo. A distinction is made here between Empties Return and Series Material Return. The loading metres are determined on the basis of the freight that Capron informs you of, while the loading quantity should remain at 1.

Note: Loading metre = loading length * loading width / 2.4

Since the average truck is around 2.4 metres wide, the length of the loading area to be loaded roughly corresponds to the loading metres.

The screenshot shows the 'Book Time Slot' screen in the Syncrosupply Central application. The 'Booking Details' section includes fields for Delivery Type (nur Abholung/Retoure), Reference (12345678), Carrier (Capron), and Supplier. Under 'Resource and Driver Information', there are fields for Vehicle Licence Plate, Driver Name (Ron Weasley), and Driver Language (English). The 'Loading Positions and Loading Units' section has dropdowns for Operations (Leergutabholung Platz) and Loading Type (Loading). A dropdown menu for 'Loading Unit' is open, showing four options: Leergutretoure bis 14 Lademetre, Leergutretoure bis 7 Lademetre, Serienmaterial Retoure bis 14 Lademetre, and Serienmaterial Retoure bis 7 Lademetre. The 'Continue' button is visible below the loading unit dropdown.

Figure 39 Select Cargo Returns

Click “Continue”

Now click on the "Continue" button to continue the process. Check your data first and correct it if necessary.

The screenshot shows the 'Book Time Slot' screen in the Syncrosupply Central application after clicking 'Continue'. The 'Booking Details' section remains the same. In the 'Loading Positions and Loading Units' section, the 'Loading Unit' dropdown now displays 'Leergutretoure bis 14 Lademetre' and the 'Loading Quantity' field is set to '1'. The 'Continue' button is highlighted with a red box.

Figure 40 Continue Returns

2.4.7 Select tour date and proposed time.

Select the date on which the tour is to take place and the goods are to be delivered by pressing on the text field and clicking on the day in the calendar sheet.

Select the time you want your truck to arrive at Capron's facility. Time slots are displayed at 15-minute intervals, but you can only book time slots at least 10 minutes in the future.

Depending on the opening hours of the loading destination you have selected, there may not be a time slot available at certain times. If this is the case, try again on another date or at another time.

The screenshot shows the Syncrosupply Central software interface for booking a time slot. The main title is "SYNCROSUPPLY CENTRAL". The top navigation bar includes "Home", "Timeslot Management", "Deliveries", "Administration", and "Help". On the right, there are "Search" and "maxim.fuerfistueck@capron.eu" links, along with a star icon and "Edit" button. The left sidebar has "Book Timeslot" selected. The main content area is titled "Book Time Slot". It shows "Booking Details" with fields for Delivery Type (nur Abholung/Retour), Reference (12345678), Driver Language (English), Carrier (Capron), Supplier (redacted), Hauler (Capron), Vehicle License Plate (redacted), Vehicle Type (Schwere Lkw ab 12 t max. Höhe ...), and Driver Name (Ron Weasly). Below this, "Operations" are listed as Leergutabholung Platz and Loading Type (Loading). The "Time Slot" section contains "Delivery Date" (08/29/2023) and "Requested Time" (01:31 pm), with the delivery date field highlighted by a red border. A "Generate Proposals" button is located at the bottom of this section. At the bottom of the page, there are "Bookmarks", "Save Selected Solution", and "Delivery Monitor" buttons.

Figure 41 Tour Date and Time Returns

2.4.8 Click “Generate proposals”.

Click on the button „Generate proposals“.

Time slot booking process haulage companies

The screenshot shows the Syncrosupply Central application interface for booking a timeslot. The top navigation bar includes Home, Timeslot Management, Deliveries, Administration, Help, and a search bar. The main menu on the left has 'Book Timeslot' selected. The 'Booking Details' section contains fields for Delivery Type (nut Abholung/Retour), Reference (12345678), Driver Language (English), Operations (Leergutabholung Platz), Carrier (Capron), Supplier (redacted), Hauler (Capron), Vehicle License Plate (redacted), Vehicle Type (Schwere Lkw: ab 12 t max. Höhe ...), and Driver Name (Ron Weasley). The 'Time Slot' section shows Delivery Date (08/31/2023) and Requested Time (11:00 am). A red box highlights the 'Generate Proposals' button. At the bottom, there are 'Save Selected Solution' and 'Delivery Monitor' buttons.

Figure 42 Generate Proposals Returns

2.4.9 Suggested delivery

Click on the one that suits you best from the proposals displayed.

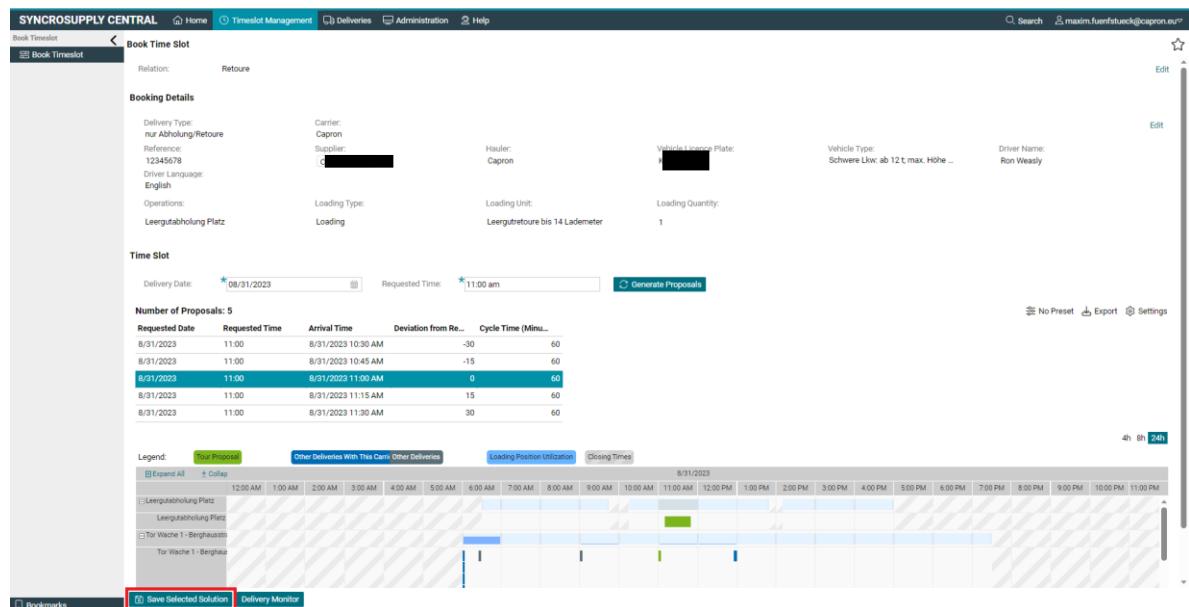

Figure 43 Suggested deliveries Returns

2.4.10 Click on Save Selected Proposal

Click on the button "Save selected proposal" to book the time slot..

The screenshot shows the Syncrosupply Central software interface for booking a timeslot. At the top, there are tabs for Home, Timeslot Management, Deliveries, Administration, and Help. A search bar and user information are also at the top right. The main area is titled 'Book Time Slot' and contains sections for 'Booking Details' and 'Time Slot'. In the 'Booking Details' section, delivery type is set to 'nur Abholung/Retoure', reference is '12345678', carrier is 'Capron', and driver name is 'Ron Weasley'. In the 'Time Slot' section, delivery date is '08/31/2023' and requested time is '11:00 am'. A table lists available proposals with columns for Requested Date, Requested Time, Arrival Time, Deviation from Re..., and Cycle Time (Min...). One proposal for 08/31/2023 at 11:00 is selected and highlighted in blue. Below the table is a timeline grid showing loading positions and closing times. At the bottom, there are buttons for Bookmarks, Delivery Monitor, and 'Save Selected Solution' (which is highlighted with a red box).

Figure 44 Save Selected Solution Returns

2.4.11 Click to create a ticket

Once in the delivery monitor, you must click on the "Create Delivery Slip" button to download the ticket. Print the ticket and give it to the driver.

The ticket is the driver's way of identifying their journey to Capron. If no ticket is brought, the delivery may be delayed or even postponed.

The screenshot shows the Syncrosupply Central software interface after a successful booking confirmation. The title is 'Booking confirmation for delivery 36369'. It displays booking details including delivery number 36369, planned start time 08/31/2023 11:00 am, and end time 08/31/2023 11:50 am. The delivery type is 'nur Abholung/Retoure' and the vehicle is a Capron truck with license plate [REDACTED]. The reference is 12345678. Below this, there is a note about booking confirmation sent to contacts and a 'Send' button for email. At the bottom, there are buttons for Delivery Monitor, Book another delivery, and Create Delivery Slip (which is highlighted with a red box).

Figure 45 Create Delivery Slip Returns

2.4.12 Home page

Click the Home button to return to your starting position. From there, you can book further journeys.

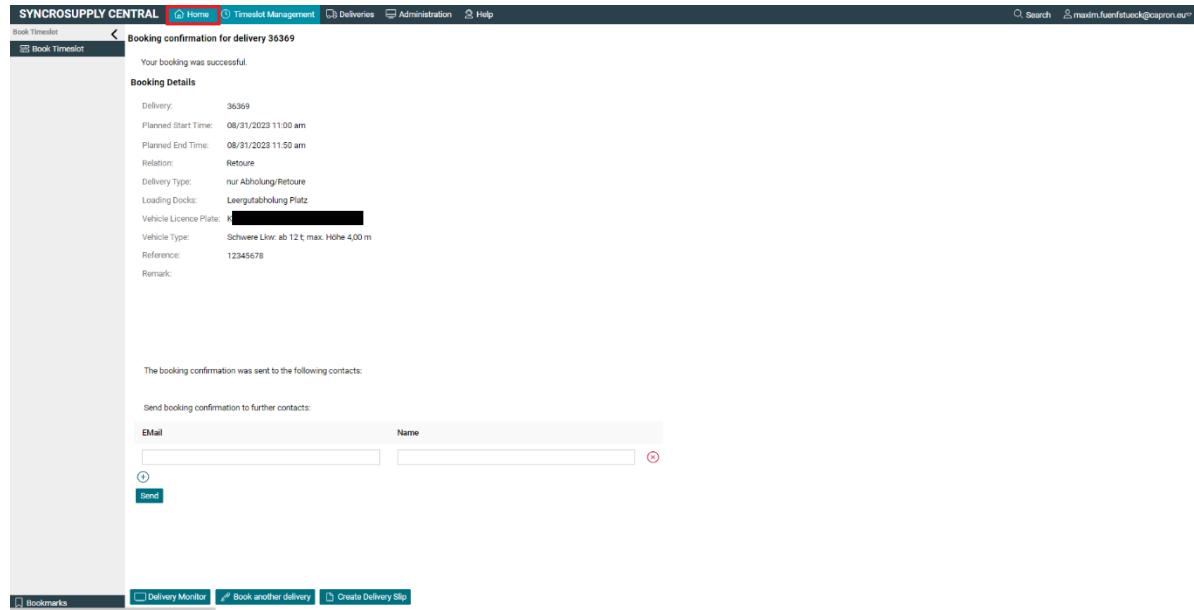

Figure 46 Home Page Returns

2.5 Sending booking link

Booking links can be used to support subcontractors in scheduling trips. To do this, a journey must first be created by the haulage company and then a booking link must be sent, which the subcontractor can use to book the journey at a time of his own choosing.

2.5.1 Create trip to time selection

Create the journey according to the normal pattern until you select the date of the journey, taking care of course to indicate the carrier correctly.

2.5.2 Click on travel monitor

Instead of selecting the trip date and time, click on the "Trip Monitor" button at the bottom of the screen.

Time slot booking process haulage companies

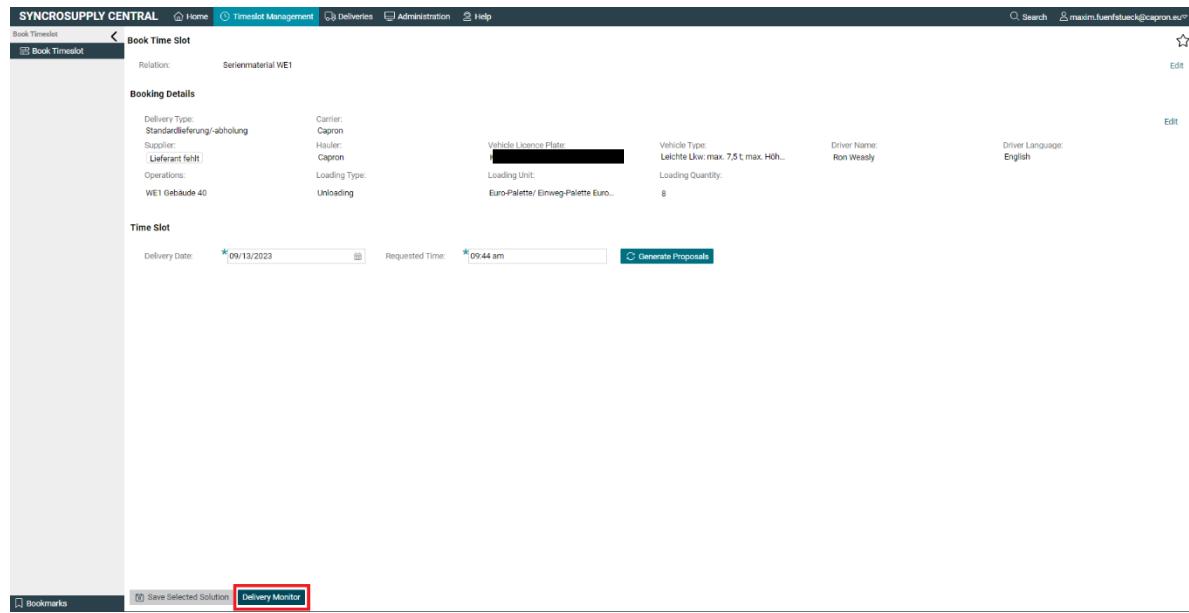

Figure 47 Delivery Monitor Link

2.5.3 Send a booking link

Look for the "Send booking link" button here and click on it.

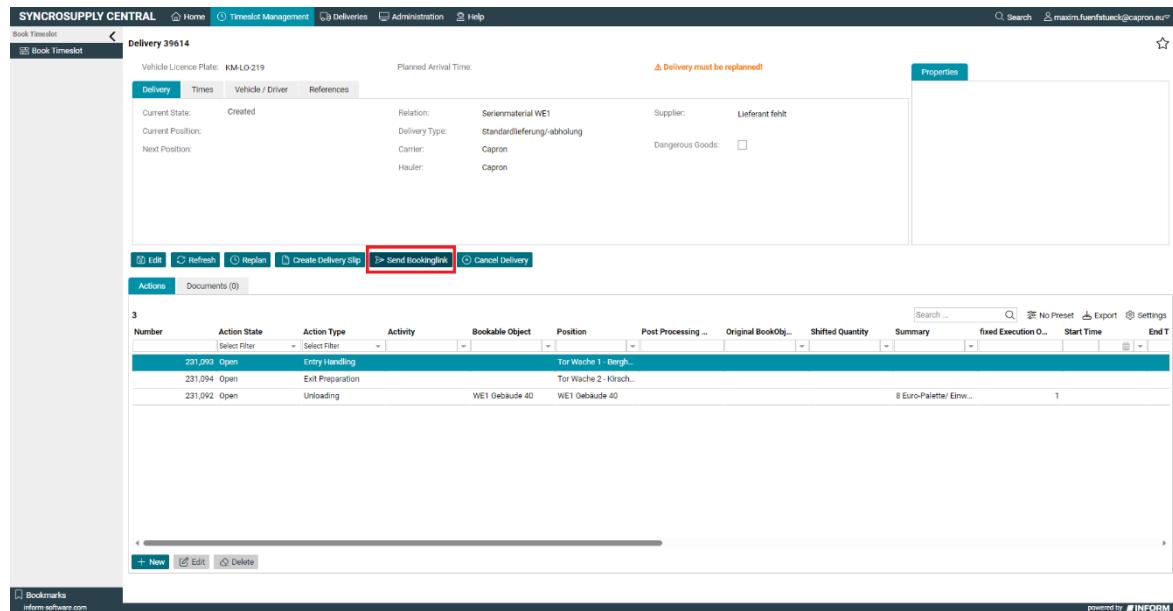

Figure 48 Send Booking Link

2.5.4 Fill out data

Time slot booking process haulage companies

Enter the language, e-mail and name of your contact person at the carrier. The booking link will be sent via the e-mail address entered here, so check that it is correct.

The data given in the picture are only inserted for understanding, use real data when using this function.

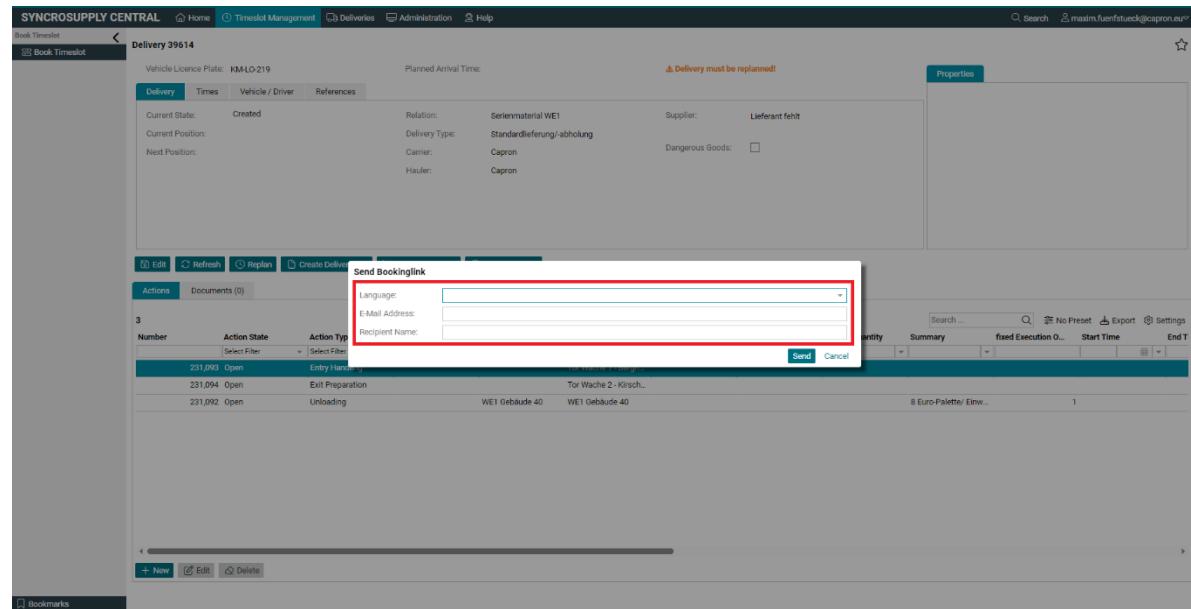

Figure 49 Data Booking Link

2.5.5 Click send

Click on the "Send" button to send the booking link.

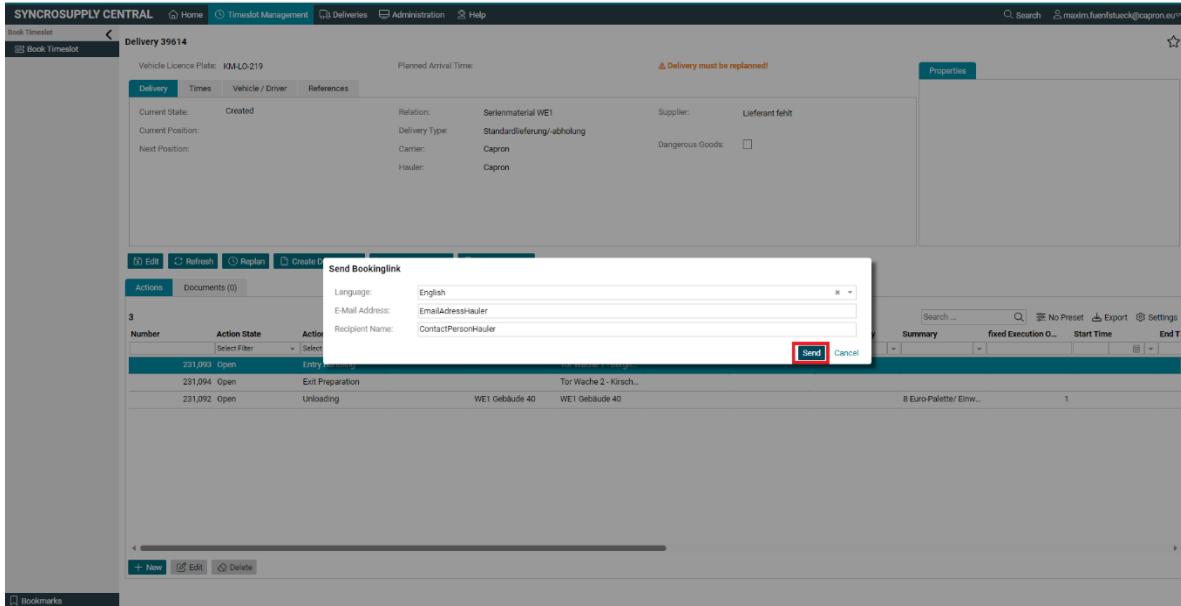

Figure 50 Click Send

Thereafter, the Haulage Contractor may book the journey at a time chosen by the Haulage Contractor.

2.6 Use of booking link

2.6.1 Open emails

You will receive the booking link from the booking haulage company by e-mail. Therefore, check your e-mail regularly. If you receive an e-mail with the subject Booking link, open it.

Booking links are used by hauliers, for example, to inform sub hauliers that a journey is being booked through them. Use this opportunity to schedule journeys according to your preferences.

2.6.2 Click booking link

Click on the booking link in the email to open the booking window..

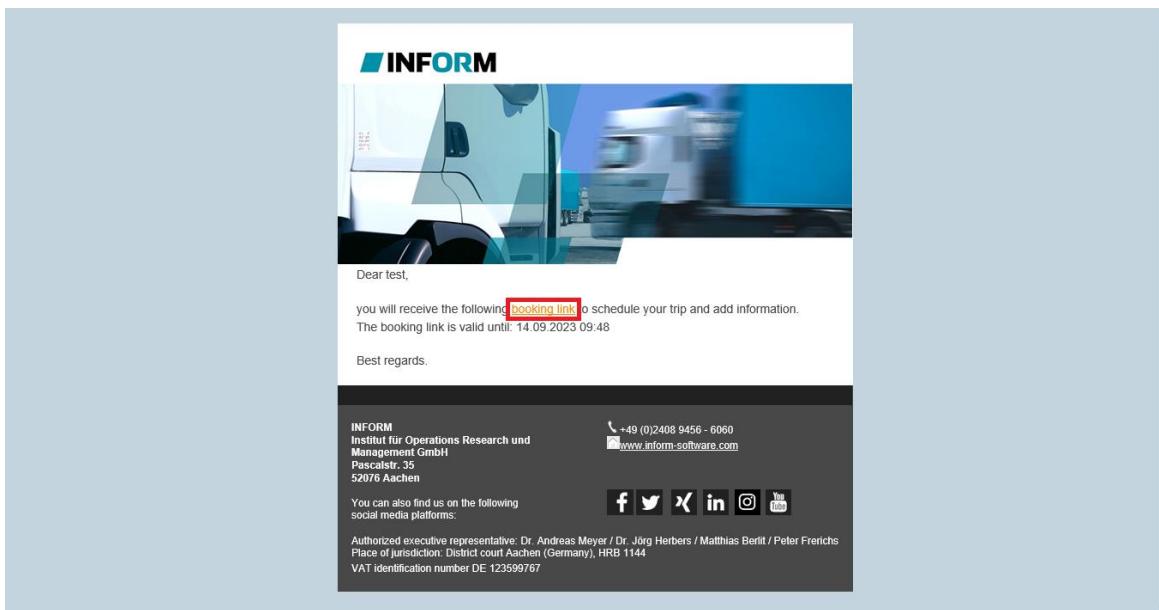

Figure 51 Click Booking Link

2.6.3 Fill in trip information

Fill in the trip data. The e-mail address is particularly important, as it will be used to send the ticket to you and is required for arrival at the factory site.

A screenshot of a web-based trip information form. At the top, there are fields for "Ladeziel": "WE1 Gebäude 40", "Ladungstyp": "Entladung", "Ladeeinheit": "Euro-Palette/ Einweg-Palette", and "Lademenge": "8". Below this is a large red-bordered box containing "Additional trip information" sections for "Fahrerdaten" (Driver name: Ron Weasley, Language: English, Mobile phone: [redacted], Email: Zeitfenster@capron.eu), "Vehicle" (Fahrzeugkennzeichen: K [redacted]), and "Anhängerdaten" (Anhängerdatenkennzeichen: [redacted]). A "Save" button is at the bottom of this section. At the very bottom, there is a "Zeitfensterbuchung" section with "Select time slot" fields for "Preferred date" (13.09.2023) and "Preferred time" (00:00), and a "Generate time slot suggestions" button.

Figure 52 Trip Information

2.6.4 Click save

Click on the "Save" button to save the data.

The screenshot shows a web-based booking interface. At the top, there are fields for 'Ladeziel' (WE1 Gebäude 40), 'Ladungstyp' (Entladung), 'Ladeeinheit' (Euro-Palette/ Einweg-Palette), and 'Lademenge' (Euromax 8). Below this is a section titled 'Additional trip information' containing 'Fahrerdaten' (Driver data) with fields for Name of driver (Ron Weasly), Language (Englisch), Mobile phone, and Email (Zeitfenster@capron.eu). There is also a 'Vehicle' section with a license plate field containing a redacted value. Under 'Anhängerdaten' (Trailer data), there is a trailer license plate field which is also redacted. A large blue 'Save' button is centered at the bottom of this section. At the very bottom of the page, there is a 'Zeitfensterbuchung' (Time slot booking) section with 'Preferred date' (13.09.2023) and 'Preferred time' (00:00) fields, along with a 'Generate time slot suggestions' button.

Figure 53 Click Save

A green menu appears in the upper right corner if the save was successful. If this does not appear, simply click on the "Save" button again..

This screenshot is identical to Figure 53, showing the same booking form. However, a green notification box in the top right corner contains the text 'Ride has been successfully processed'. This indicates that the data has been saved successfully.

Figure 54 Save Confirmation

2.6.5 Select time and date

Now select the time at which the trip should arrive at Capron's factory. Please note that not all times are available. There are different opening times for each goods receipt. The suggestions that are displayed to you take into account opening times and slots that are already blocked.

The screenshot shows a web-based booking system. At the top, there are tabs for 'Ankunftszeit' (Arrival Time) and 'Euromax'. Below this is a section titled 'Additional trip information' containing fields for driver details (Name: Ron Weasley, Language: English, Mobile phone, Email), vehicle details (Fahrzeugkennzeichen), and trailer details (Anhängerdatenkennzeichen). A 'Save' button is located below these fields. The main area is titled 'Zeitfensterbuchung' and contains a sub-section 'Select time slot'. This section includes fields for 'Preferred date' (set to 13.09.2023) and 'Preferred time' (set to 00:00), followed by a 'Generate time slot suggestions' button. The entire 'Select time slot' section is highlighted with a red rectangle.

Figure 55 Time and Date Booking Link

2.6.6 Click to create time slot suggestions

Click on the button "Generate time suggestions".

This screenshot is identical to Figure 55, showing the 'Zeitfensterbuchung' section. The 'Generate time slot suggestions' button has been clicked, as evidenced by the blue highlight around it. The rest of the interface remains the same, with the 'Preferred date' set to 18.09.2023 and 'Preferred time' set to 08:00.

Figure 56 Generate Suggestions

2.6.7 Select suggestion

You will now be shown five suggestions that are as close as possible to your desired time. Select your favorite by clicking on it once and the time will be highlighted in blue.

The screenshot shows a user interface for vehicle booking. At the top, there are fields for 'Vehicle' (Fahrzeugkennzeichen) and 'Anhängerdaten' (Anhängerdatenkennzeichen), both with placeholder text. A 'Save' button is located below these fields. Below this, a modal window titled 'Zeitfensterbuchung' (Time Window Booking) is displayed. It contains a 'Select time slot' section with 'Preferred date' (18.09.2023) and 'Preferred time' (08:00). A 'Generate time slot suggestions' button is next to these fields. Below this, a 'Book a time slot:' section shows five time slots: 09:50 (Duration: 60 min), 10:05 (Duration: 45 min, highlighted with a red border), 10:20 (Duration: 45 min), 10:35 (Duration: 45 min), and 10:50 (Duration: 45 min). A 'Save' button is at the bottom of this section.

Figure 57 Select Suggestion

2.6.8 Click save

Click on the "Save" button to book the time slot. It is best to check again whether the dates and times are correct.

The screenshot shows a web-based booking interface for a vehicle. At the top, there are fields for 'Vehicle:' (with placeholder 'Fahrzeugkennzeichen:' and a redacted input field), 'Anhängerdaten:' (with placeholder 'Anhängerdatenkennzeichen:' and a redacted input field), and a 'Save' button. Below this is a section titled 'Zeitfensterbuchung' (Booking window). It includes a 'Select time slot:' section with 'Preferred date:' (18.09.2023) and 'Preferred time:' (08:00). A 'Generate time slot suggestions' button is also present. The main part is 'Book a time slot:', showing five time intervals from 09:50 to 10:50. The 10:05 slot is highlighted in teal, indicating it is selected. Below the slots is another 'Save' button, which is highlighted with a red rectangle.

Figure 58 Save Timeslot

This screenshot is similar to Figure 58 but includes a green success message box in the top right corner stating 'Time slot has been successfully booked!' with a close button. The rest of the interface is identical to Figure 58, showing the vehicle details, the 'Zeitfensterbuchung' section with the same date and time preferences, and the 'Book a time slot:' section with the 10:05 slot selected. The 'Save' button at the bottom is also present.

Figure 59 Booking confirmation

2.6.9 Print out ticket and give to driver

You will now receive a confirmation email to the email address you provided, open the email and save the Transport Ticket for Delivery. This must be printed out and given to the driver on the day of delivery so that the journey runs smoothly and without delays.
